

List of all the **mods** I installed in this video: <https://youtu.be/zlzusFforyU>

You can check these mods and install the ones you like. Or you can install all of them if your PC can handle it :)

If you want to learn modding in GTA 5, then this playlist will help you:

https://www.youtube.com/watch?v=IBbMOPFfgDk&list=PLi4q3ELuphx_qw8heXs7HohYoqfKjgrhV

Pro-tip: Don't install multiple mods at once without testing them. Because if the game crashes or the mod didn't work, you will not know which particular mod caused it. Better way is to install a single mod at a time, and then test it in game before moving to the next ;)
